5 WAYS YOU CAN SAVE BIG on Postage

Did you know?

In addition to commingling letters, you can save money on postage for other types of mail you may be sending! Here are **5** of our most popular (and effective!) mailing services you may not be aware of:

1 Commingle your first-class letters & flats.

If you send first-class letters or flats (invoices, statements, benefits information, etc.) we can commingle your first-class mail for additional savings, just as we do with your marketing mail. Take advantage of USPS Promotions commingling discounts…and let us sweat the the details for you!

2 Drop ship your large mailings.

Do you have large volume, version and/or other mailings concentrated in regions? Drop Shipping may be a solution to get your mail to the SCF quickly and affordably!

3 LTL for smaller mailings.

If you have a small mailing, you may want to consider LTL (Less Than a Truck Load.) This service is ideal for smaller, time-sensitive mailings that are concentrated in a region. We'll get your mail to the SCF quickly, all while saving you more money.

4 Commingle marketing mail parcels.

Need to send a small parcel? We now offer commingling in first-class and marketing mail parcels! Can you say "Increased Open Rate"?!

5 Integrate MailTracker.

We can integrate our proprietary MailTracker with your software system so you can keep pulse on your mailings—anytime.

Let's chat about how we can help you save on your postage expense!
